

Revolutionize Your Warehouse with HiSenz Platform

Unlock Unprecedented Efficiency and Accuracy with HiSenz

Unlocking Significant Returns: The ROI of RFID in Warehousing

- **Increased Revenue and Sales**
 - Prevention of Stockouts
 - Reduced Obsolescence
- **Better Data for Informed Decisions**
 - Valuable Insights
 - Strategic Planning
- **Optimizing your manpower**
 - Automated Inventory Counts
 - Accelerated Receiving and Shipping
 - Optimized Picking and Packing
- **Enhanced Inventory Accuracy and Error Reduction**
 - Automated Inventory Counts
 - Near-Perfect Inventory Accuracy
 - Elimination of Shipping Errors
 - Reduced Inventory Shrinkage

Achieve 99%+ Inventory Accuracy

Boost Operational Efficiency

- Receiving & Shipping
- Order Fulfillment
- Rapid Cycle Counts

• Slash Operational Costs

- Optimise work force
- Minimize Shrinkage
- Eliminate Shipping Errors

Seamless integration with ERP systems

Applications Across Your Entire Operation

**Inventory & Asset
Management**

Dock Door Automation

**Picking & Put-Away
Validation**

Supply Chain Visibility

Cold Chain & Compliance

Revolutionize Your Warehouse with HiSenz Platform

Unlock Unprecedented Efficiency and Accuracy with HiSenz

↑ **Revenue**
No more stockouts

↓ **Costs**
Leaner workforce

↓ **Errors**
Zero shipping mistakes

What you gain

Revenue Growth

- Eliminate stockouts
- Reduce obsolescence

Smarter Decisions

- Real-time inventory data
- Actionable insights

Workforce Efficiency

- Automated counts
- Faster pick & pack

Operational Benefits

- Fast receiving & shipping
- Rapid cycle counts
- Minimise shrinkage
- Seamless ERP integration

Applications

Inventory & Asset Management

Dock Door Automation

Picking & Put-Away Validation

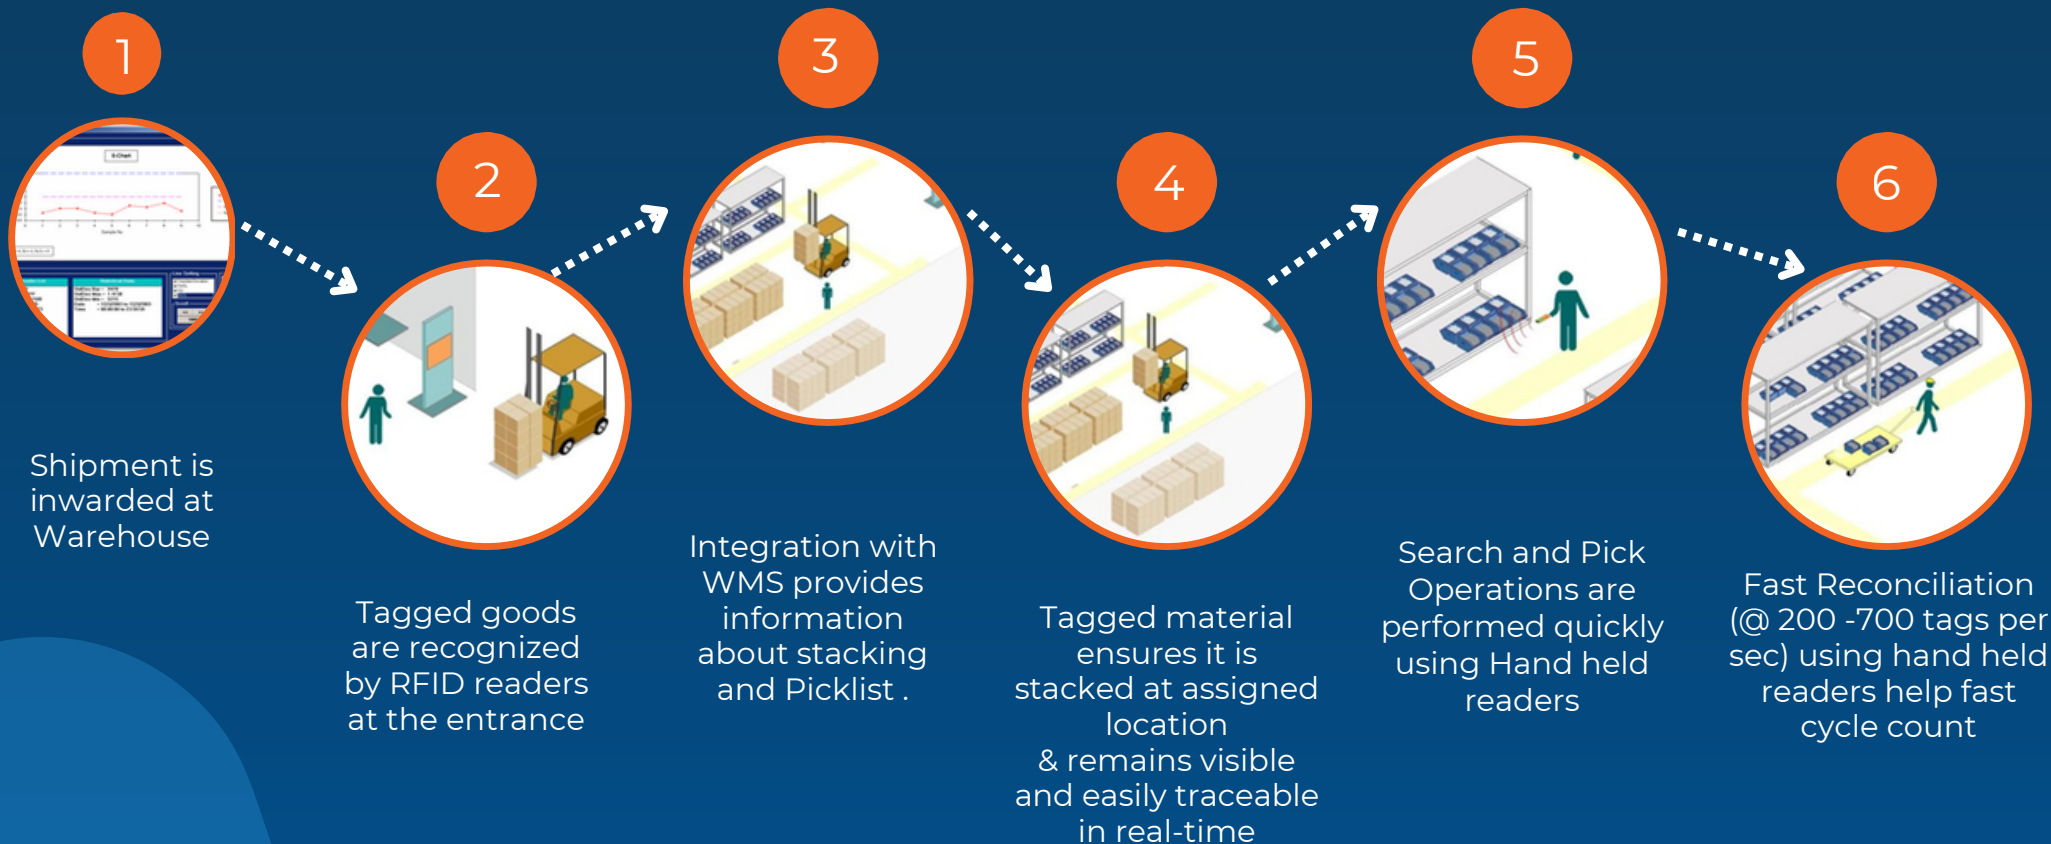

Supply Chain Visibility

Cold Chain & Compliance

Solution for efficient Inventory Tracking and usage - Warehouse and Beyond

Revolutionize Your Warehouse with HiSenz Platform

Critical Pain Points in Warehouse Operations

Inventory Inaccuracy

Space Utilization

Lack of Real-Time Data

Manual Processes

Unoptimized workforce Allocation

Order Picking Errors

Delayed Shipments

Time-Consuming Processes

Regulatory Non-compliance

Unlock Unprecedented Efficiency and Accuracy with HiSenz

6 Benefits in One Glance

Aspects

Before RFID

After RFID

Order Picking

Time-consuming and error-prone

Faster and more accurate picking through real-time data

Inventory Accuracy

Manual counts prone to human error

Real-time, automated tracking with >99% accuracy

Audit & Compliance

Time-intensive and often outdated

Automated gate-in/out, faster turnaround

Item Identification

Barcode/manual entry; slower and error-prone

Automatic, non-line-of-sight tag reading

Smarter Warehousing. Real Results.

Eliminates errors, cuts costs, and scales with your operation.
